

# AutoCAD 2008 Intermediate

## Introduction

This courseware is designed for the experienced AutoCAD® user who requires additional training. It incorporates the features, commands, and techniques for becoming more productive when creating, annotating, and printing drawings with AutoCAD 2008.

This intermediate-level course continues to build on the basic concepts of the AutoCAD 2008 Essentials course.

Hands-on exercises throughout the courseware explore how to create 2D production drawings. The exercises are provided in both a printed format as well as an onscreen format that can be viewed next to AutoCAD.

## Who should attend

This courseware is designed for the experienced AutoCAD user who wants to learn more about AutoCAD 2008.

## Duration

3 days

## Objectives

The primary objectives of this courseware are:

- ◆ To teach students powerful tools and techniques for drawing, dimensioning, and printing 2D drawings.
- ◆ To enable students to reuse content that has been previously created, and extract information from their drawings.
- ◆ To teach students to grasp the high-level concepts of designing in 3D.

With an understanding of these tools, students can begin to streamline the design process and become more productive with AutoCAD 2008.

### How to Book

You can choose from the following options:

- ◆ Call our TRAINING CENTRE on 01189 778562
- ◆ Email us at our specially designated TRAINING CENTRE address:
