

Adobe InDesign Cs

Objectives

Adobe InDesign is a desktop publishing (DTP) software application used mainly by designers for creating and laying out periodical publications, posters, and print media.

This one day course for Adobe InDesign CS will enable delegates to design and produce professional print documents and layouts. Delegates will learn how to manipulate text, shapes, colors and frames to create eye-catching print products.

Delegates attending this course should be familiar with PCs and should also be proficient users of the Windows XP operating system.

Course Duration

1 day
